

JOIN A NURSERY THAT VALUES YOU

Opportunities for fast progression | Rewarding benefits | Like-minded people

What we do

We provide childcare so that parents have a home from home for their children when they go to work.

We aim to have a nursery that understands London life, embraces diversity and improves continually.

Where are we going?

Our aim is to build a small group of unique and exciting high-quality nurseries.

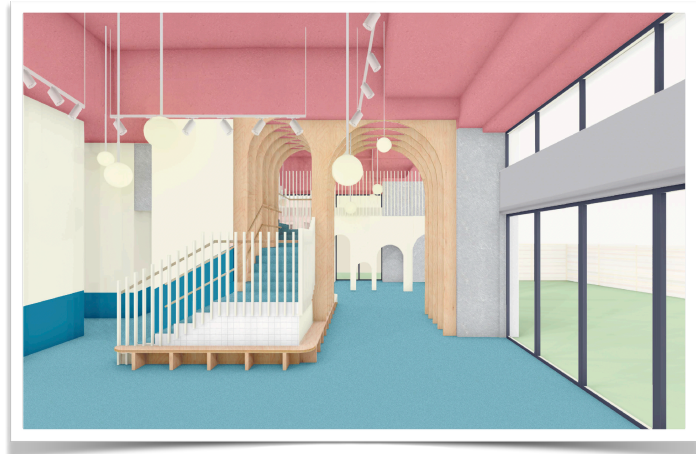

We are comfortable experimenting with new lessons and approaches and welcome new ideas from all our team.

What this could mean for you?

How good we are as a nursery is driven by how good our people are.

We set high standards as we hire capable people and want everyone to work together towards the same goal.

As we expand, senior positions will be regularly made available to high performers.

Reflecting on your situation

2023 has been a long and chilly year, and you may just be looking forward to the summer rather than thinking about a new role. We aim to provide a career with a difference. Do you ever find yourself feeling like this:

- My manager doesn't care about my development!
- There's no room for promotion!
- My salary is too low!
- Too much paperwork!
- No one cares about how their environment looks!
- We could do better, but I can't do it alone!

New roles starting 30 August 2023

- Deputy Manager (£30k+)
- Third in Charge (£28k+)
- Room Leader (£25k+)
- Senior Educator Level 3 & 6 (£24k+ (++) for extra roles))

These are starting salaries and are dependent on your experience, interview and additional responsibilities.

Growth at a sensible pace

Our style of growth is careful and steady. We believe this is how you develop a good thing. You put time and effort in to it and don't expect immediately perfect results. We work hard at making it great.

We are currently building our new setting, which will be run in tandem with the current nursery. This allows us to specialise each setting in to age groups, and also split our current team in two, so that our culture and approach will be consistent and the new nursery won't be "too new".

What we offer you

- A salary that recognises your value to the team!
- Diverse roles, built around your skillset
- Opportunities for fast progression
- All training fully-funded, as long as it useful to childcare
- A fresh start ahead of September 2023 - have your summer off!
- Paid time away from nursery for face to face training
- Private health Insurance / Cycle-to-work scheme
- Discounted childcare and 3-monthly team bonding socials
- 3 paid INSET days per year

Do you feel that you could make an impact?

We are looking forwards to September, but may have earlier opportunities to bring you in to the team, maybe even helping with launching the nursery.

Please send a cover note and your CV to our email addresses below for any applications.

We both look forward to meeting you and discussing the opportunities.
