

JOIN A MODERN & GROWING NURSERY

Like-minded people | Rewarding salary | Fast opportunities for progression

We do we exist?

We started a nursery so that parents had a home from home for their children while they went to work.

To have a nursery that understands what London life is like, embraces diversity and adapts continually.

Where are we going?

Our aim is to build a small group of unique and exciting high-quality nurseries.

We are comfortable experimenting with new lessons and approaches and welcome new ideas from all our team.

What this could mean for you?

How good we are as a nursery is driven by how good our people are.

We set high standards as we hire capable people and want everyone to work towards the same goal.

As we expand, senior positions will be regularly made available to high performers.

Opportunities to work with us

2022 has been a long and chilly year, and you may not have thought about changing jobs. Do any of the following feel familiar?

- I don't feel supported
- My manager doesn't care about developing me
- My salary is too low
- The paperwork is too much
- My nursery is dirty and not fun to work in?

We are hiring for the following positions:

- Third in Charge (£27k-30k)
- Room Leader (£25k-27k)
- Childcare Practitioner Level 3 & 6 (£24k+)

Salaries dependent on your experience, performance in interview and additional responsibilities.

Growth at a sensible pace

Our style of growth is careful and steady. This is how you develop a good thing. You put time and effort in to it and don't expect immediately perfect results. We work hard at making it great.

When we launch our new nursery will have a second great place to work. It will look similar to the above sketch, have a dedicated staff area, a professional kitchen and will be located on the river in an established development called Royal Wharf.

What we offer you

- A salary that recognises the value you bring!
- All training fully-funded, from degrees to Forest School
- Opportunities for fast progression
- Diverse roles, built around your skillset
- Health Insurance / Cycle-to-work scheme
- Discounted childcare and team bonding socials
- 3 paid INSET days per year

Do you feel that you could make an impact?

We are looking forwards to September, but may have earlier opportunities to bring you in to the team, maybe even helping with launching the nursery.

Please send a cover note and your CV to our email addresses below for any applications.

We both look forward to meeting you and discussing the opportunities.
